Fabian J. Ortega A.

Business & AI Transformation Leader · Founder & Operator, AKA Holdings · Former President and CEO
Miami, FL · fabian@aka.holdings · linkedin.com/in/fabianortegaa · github.com/fortega78

SUMMARY

Transformation leader who has run and built multi-site businesses from the owner's seat: President of a vehicle distributor with about 1,000 people and $100M+ in annual sales, co-founder and CEO of a parts company grown from zero to about $30M with a 100+ site franchise network, and co-founder of a hospitality platform grown to 200+ units in nine U.S. cities. More than 15 years on boards in the United States and Latin America. I lead change the same way every time: find where the business loses value and who owns the problem, redesign the work, then choose the tool, increasingly AI, and govern it. Today I apply that method to my own group, AKA Holdings, whose technology unit builds the AI systems that run its businesses. Inaugural cohort, Boston University MS in AI in Business. Bilingual English and Spanish. Based in Miami.

SELECTED RESULTS

- President of a $100M+ vehicle distribution company with about 1,000 employees, within a group of about $130M; three consecutive years in General Motors' President's Club.
- Co-founded a parts and distribution company and grew it from zero to about $30M in annual sales; built a national franchised network of 100+ locations on one operating model; five years as Peugeot's best service dealer in Latin America.
- Won new manufacturer representations from Japan, Germany, France and the United States, including GM/Chevrolet, Isuzu, Peugeot and Mercedes-Benz.
- Grew a hospitality platform from 3 to 200+ units across nine U.S. cities, at an approximate $20M pre-pandemic valuation.
- Built a direct-to-consumer beverage brand from zero and sold it.
- Designed and runs the AI operating layer of AKA Holdings; one of its four systems is in daily use, two are in build, one is in design (see below).

PROOF OF WORK — AKA TECHNOLOGIES: MAGOS, FABI, MULTA, CEREBRO

AI systems for real operations, built first for our own art, design and commerce businesses. Status as published in the AKA Technologies portfolio (v1.6, October 2026).

- **CEREBRO — Operations, verified.** *In daily use.* A chief-of-staff system that runs the founder's day across four businesses, two academic programs and a job search: a scheduled agent drafts the morning brief from email, WhatsApp and calendar; a 15-minute ritual verifies it; a live dashboard tracks commitments, money states and habits.
- **MAGOS — Growth, orchestrated.** *In build.* A multi-agent orchestration system: the layer that turns business goals into coordinated work across specialized agents, with hard per-brand data separation and human-governed autonomy levels.
- **FABI — Agents that do the work.** *In build.* The founder's agents — the specialists MAGOS directs: listening, strategy, creative, launch, analytics, commerce, governance, reporting and transcreation — each with defined boundaries and measurable outputs.
- **MULTA — Tolls and fines, handled.** *In design, co-built with a fleet operator.* An agent for car-sharing fleets of 10+ vehicles that matches every toll, ticket and fine to the right car, trip and guest — and answers who pays each charge.
- **Open-source tools (GitHub, Apache-2.0):** framecheck, which tests whether an AI initiative is framed well enough to be judged, and m4a, experiment design for low-volume, high-ticket commerce. No production experiment has run through them yet.

EXPERIENCE

Founder & Operator
AKA Holdings | Miami, FL | January 2026 – Present

- Own and operate a group of three units and one associated brand — AKA Technologies, AKA Art Productions (with its AKA Editions line), AKA Interior Design and TeHer Art Rugs (Part of AKA Holdings) — and run them on one AI operating layer that I design and govern.
- Governance written before any system runs: budgets, legal and privacy rules, brand standards, price limits, approval thresholds and escalation.
- Formerly ACA Capital; renamed AKA Holdings in October 2026.

President (Vice President, Development, 2004–2005)
AngloAutomotriz / ABP Group | Ecuador | 2004 – 2020

- Led the group's vehicle distribution company (General Motors, Suzuki and Isuzu Trucks, GM parts distribution and authorized workshops) across six dealerships nationally: about 1,000 employees and $100M+ in annual sales, within a group of about $130M. Reported to the board of directors and its chairman.
- Expanded the group's brand portfolio by winning manufacturer representations from four countries, then built the OEM standards, commercial processes, CRM, pricing and channel expansion each brand required.
- Got store teams to adopt and keep those standards; three consecutive years in General Motors' President's Club.

CEO & Co-Founder (Commercial Manager, then General Manager)
Cetivehiculos / 1800 Partes | Ecuador | 2002 – 2017

- Co-founded and led the group's parts, aftermarket and vehicle company, growing it from zero to about $30M in annual sales with a team of about 120, serving 2,000+ B2B customers a month across 25+ vehicle brands. Reported to the board of directors and its chairman.
- Built and operated a national franchised battery-center network of 100+ locations on one operating model; second-largest battery distributor in Ecuador.
- Held the Peugeot franchise for Ecuador, with five years as Peugeot's best service dealer in Latin America; sold Mercedes-Benz; represented AC Delco, KYB and about fifteen further parts brands; supplied the General Motors plant and other national assemblers.
- Led commercial strategy, the franchise and distribution model, API-enabled inventory and parts logic, supplier relationships and customer service.

Co-Founder & Chief Growth Officer
Nuovo Properties | United States (nine cities) | 2015 – 2022

- Grew a furnished-rental and hospitality platform from 3 apartments to 200+ units across nine U.S. cities, at an approximate $20M pre-pandemic valuation.
- Led growth strategy, revenue management and pricing, marketplace distribution (Airbnb, Booking, Expedia and direct channel), customer experience and CRM.
- Through 2020, worked one week a month in Miami and three in Ecuador alongside the roles above. Wound the business down when COVID ended the model.

Founder
AKA Art Productions | June 2017 – Present

- Part of AKA Holdings. Produces work for contemporary artists with master craftspeople in Nepal, India, Mexico, Uzbekistan and Mali, bringing intangible cultural heritage into contemporary art; AKA Editions is its limited-editions line. Work exhibited at Art Basel Miami Beach (four editions), Art Basel Paris (two), Art Week Tokyo, FIAC Paris, Zona Maco, NADA Miami and Museo Jumex, with galleries including Perrotin and kurimanzutto.

Co-Founder & Creative Lead (part-time)
TeHer Art Rugs | January 2017 – Present

- Part of AKA Holdings. Runs the commercial side of a made-to-order luxury rug brand: artist collaborations, collections, production quality with master craftspeople, and sales direct, online and to the design trade at $3,000–

$9,000 a piece. Test bed for the group's AI operating layer.

Founder & CEO
Mizudashi Bioboost Infusions | March 2023 – February 2024

- Built a direct-to-consumer beverage brand from zero (positioning, product, packaging, go-to-market and distribution) and sold the brand.

Marketing Director & Board Member
Inlingua Language Centers Florida | Miami, FL | Early career

- Worked full time through the final years of the University of Miami BBA.

BOARD EXPERIENCE

- More than 15 years of board-level work across automotive, mobility, real estate, hospitality, education, services, social impact and art: objectives and metrics, budgets, restructuring, execution tracking and growth.
- Boards include AngloAutomotriz, Cetivehiculos, Motortrack, MB Motors, Nuovo Properties, Cetitur Ecuador, Colegio Espíritu Santo, Tecnológico Espíritu Santo and Inlingua Language Centers.
- Alternate Director, Fundación Leónidas Ortega Moreira (more than 2,000 full student scholarships granted). Board of Directors, Picolini's Animal Rescue, Miami. Founding Member, Young Presidents' Organization, Guayaquil Chapter.

EDUCATION

Boston University, Questrom School of Business — MS in AI in Business, in progress (inaugural cohort; expected 2028)

University of Miami, Miami Herbert Business School — Bachelor of Business Administration, Marketing; Minor in Business Management & Organization. GPA 3.356; Dean's List; Provost's Honor Roll.

University of Notre Dame, Mendoza College of Business — Undergraduate business studies; credits transferred to the University of Miami BBA.

Coursework projects (2026): two evaluated agentic workflows (n8n) for support-ticket triage and grounded market intelligence, UT McCombs program.

CERTIFICATIONS

Anthropic Academy: Claude 101, Introduction to Subagents, AI Fluency: Frameworks & Foundations (2026) · Disney Institute: Disney's Approach to Quality Service · General Motors, Peugeot and KYB manufacturer training programs.

SKILLS

Business transformation · value creation · operating-model redesign · multi-site and franchise operations · P&L leadership · AI strategy and governance · multi-agent systems design (operator level) · revenue management and pricing · DTC and e-commerce · go-to-market · board governance · change management and adoption · KPI and executive dashboards · U.S.–Latin America · English and Spanish, native fluency.
